# Loops

## Repetitive tasks

```cpp
//Print I love C++ 10 times
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
std::cout << "I love C++" << std::endl;
```

For loop

Range based for loop

While loop

Do while loop
